

VERTEX3D LAUNCHES HD5890 FOR ULTIMATE GAMING PERFORMANCE

Deliver the mind-blowing gaming experience like never before

Taipei, Taiwan, November 18th- VERTEX3D, a new expected brand of AMD graphics card, today announces the fastest solution ever in the world: Vertex3D HD5890, ready to tackle all the most demanding titles and deliver the ultimate immersive HD gaming experience.

The VTX3D HD5970 clocks at 725MHz core and 1000MHz memory, equipped with the most advanced GDDR5 memory. The memory data transmission rates up to 4.0gbps; with up to 4.64TeraFLOPs of processing power easily boosts up the gaming performance. Furthermore, the VTX3D HD5970 has massive headroom for gamers to take control and push the hardware to the limits, allowing the unprecedented gaming experience.

Featuring all the cutting-edge technology, VTX3D HD5970 offers full DirectX® 11 support, enables the mind-blowing gaming performance with stunning 3D visual effects and lifelike imagery. With Dual DL-DVI / mini Display Port onboard design, HD5970 takes advantage of ATI Eyefinity technology to run up to 3 displays and expand your gaming field. Not only that, this fastest solution is compatible with ATI stream technology, gamers can accelerate demanding applications and get more things done in less time.

“VTX3D HD5890 is designed to fulfill the toughest gamers who seek the fastest graphics solution for the most demanding titles,” said Willie Huang, Sales Director of VTX3D, “There’s no doubt that VTX3D HD5890 is the top choice for the hardcore gamers!”

About TUL Corporation

TUL is a leading AMD graphics solution provider, which established VTX3D brand. TUL offers award-winning products based on its technology leading components, quality design and superb engineering. TUL employs more than 150 talents worldwide, with offices in China, Netherlands, Russia and USA to support over 300 channel partners and distributors in 50 plus countries.
